

How Are We Doing?

January 2014

Overall

20 produce samples were tested (at an average of 554 different pesticides per product) and we found 31 residues, two of which exceeded the MRL set for that product.

In total, we found residues in 12 samples, leaving eight samples which were residue free. We did not find any banned pesticides.

Specific Residues

After investigation the residue exceedance of nitrate present in round lettuce was found to result from the lettuce being grown undercover. As sunlight reduces the nitrate level in lettuce leaves, during winter nitrate levels are higher as the winter days are shorter and darker and the cloud level is lower. The supplier is part of the ADAS UK nitrate monitoring programme. Subsequent monitoring data has found nitrate levels to be under the MRL.

The residue exceedance of benzalkonium (BAC) present in roquette was found to result from the use of sanitizers at the supplier production site. In response the supplier changed to a non BAC based sanitizer and subsequent testing has found no residues.

Co-operative Prohibited Pesticides

We did not find any prohibited residues.

Co-operative Monitored Pesticides

Country	Produce Type	Pesticide
Chile	Blueberries	Phosmet
Spain	Cucumber	Chlorothalonil, Metalaxyl
Spain	Lettuce	Dithiocarbamates
UK	Apple	1,2,3,6-Tetrahydrophthalimide, Chlorpyrifos
UK	Lettuce	Dithiocarbamates, Metalaxyl
UK	Parsnip	Linuron, Tebuconazole

Co-operative No restriction pesticides

Country	Produce Type	Pesticide
Chile	Blueberries	Boscalid, Fenhexamid
Italy	Roquette	Spinosad
Spain	Cucumber	Cyprodinil, Fludioxonil, Fluopicolide, Propamocarb
Spain	Peppers	Fludioxonil, Flutriafol, Myclobutanil
UK	Brussel sprout	Boscalid
UK	Lettuce	Azoxystrobin, Propamocarb
UK	Parsnip	Boscalid, Prosulfocarb
UK	Potatoes	Chlorpropham, Propamocarb

February 2014

Overall

32 produce samples were tested (at an average of 554 different pesticides per product) and we found 78 residues, none of which exceeded the MRL set for that product.

In total, we found residues in 25 samples, leaving seven samples which were residue free. We did not find any banned pesticides.

Specific Residues

Nothing to report.

Co-operative Prohibited Pesticides

We did not find any prohibited residues.

Co-operative Monitored Pesticides

Country	Produce Type	Pesticide
Belgium	Pear	1,2,3,6-Tetrahydrophthalimid, Dithiocarbamates
Colombia	Banana	Imazalil
Ethiopia	Basil	Acetamiprid, Emamectin, Metalaxyl
Ethiopia	Mint	Acetamiprid
Ethiopia	Sage	Acetamiprid, Emamectin
Guatemala	Peas	Dithiocarbamates
Italy	Coriander	Biphenyl
Italy	Tomatoes	Difenoconazole, Metalaxyl

Kenya	Thyme	Chlorothalonil
Morocco	Tomatoes	Dithiocarbamates, Iprodione
Spain	Cucumber	Chlorothalonil
Spain	Lemon	Etofenprox, Imazalil
Spain	Lettuce	Acetamiprid, Difenoconazole, Dithiocarbamates, Imidacloprid
Spain	Spinach	Cypermethrin, Deltamethrin, Imidacloprid, Lambda Cyhalothrin, Piperonyl Butoxide,
UK	Apple	1,2,3,6-Tetrahydrophthalimide
UK	Lettuce	Iprodione, Pirimicarb desmethyl
UK	Parsnip	Tebuconazole
Not known	Apple	1,2,3,6-Tetrahydrophthalimide
Not known	Chilli	Tebuconazole
Not known	Raspberry	Phthalimide, Pyrimethanil

Co-operative No restriction pesticides

Country	Produce Type	Pesticide
Belgium	Pear	Boscalid, Cyprodinil, Fludioxonil, Pyraclostrobin,
Canary Islands	Tomatoes	Boscalid, Cyprodinil, Fludioxonil
Colombia	Banana	Azoxystrobin
Ethiopia	Basil	Azoxystrobin, Boscalid, Fenhexamid
Ethiopia	Sage	Azoxystrobin
Italy	Coriander	Boscalid, Propamocarb, Pyraclostrobin
Italy	Tomatoes	Fludioxonil, Propamocarb
Guatemala	Peas	Azoxystrobin
Morocco	Tomatoes	Azoxystrobin, Boscalid, Pyraclostrobin

Spain	Cucumber	Azoxystrobin, Cyprodinil, Fludioxonil, Fluopicolide, Propamocarb
Spain	Lettuce	Boscalid, Dimethomorph
Spain	Spinach	Boscalid
Spain	Tomatoes	Cyprodinil
UK	Lettuce	Azoxystrobin
UK	Parsnip	Boscalid, Prosulfocarb
Not known	Chillies	Azoxystrobin, Spiromesifen, Trifloxystrobin
Not known	Potatoes	Chlorpropham
Not known	Raspberries	Boscalid, Cyprodinil, Fludioxonil, Pyraclostrobin

March 2014

Overall

10 produce samples were tested (at an average of 554 different pesticides per product) and we found 22 residues, two of which exceeded the MRL set for that product.

In total, we found residues in five samples, leaving five samples which were residue free. We did not find any banned pesticides.

Specific Residues

After investigation the residue exceedance of benzalkonium (BAC) present in lettuce and mixed salad was found to result from the use of sanitizers at the same supplier production site. In response the supplier changed to a non BAC based sanitizer and subsequent testing has found no residues.

Co-operative Prohibited Pesticides

No residues detected.

Co-operative Monitored Pesticides

Country	Produce Type	Pesticide
France	Apple	Pirimicarb
India	Grape	Fenpyroximate, Imidacloprid, Lambda Cyhalothrin, Triadimefon and Triadimenol, Tetraconazole, Triadimenol
Spain	Spinach	Lambda Cyhalothrin, Imidacloprid
Vanuatu	Mixed salad	Chlorantraniliprole
Not known	Lettuce	Imidacloprid

Co-operative No restriction pesticides

Country	Produce Type	Pesticide
France	Apple	Boscalid, Pyraclostrobin
India	Grape	Azoxystrobin, Myclobutanil, Spinosad

Vanuatu	Mixed salad	Boscalid, Chlorpropham, Mandipropamid, Propamocarb, Pyraclostrobin
---------	-------------	--

April 2014

Overall

16 produce samples were tested (at an average of 554 different pesticides per product) and we found 25 residues, none of which exceeded the MRL set for that product.

In total, we found residues in 12 samples, leaving 4 samples which were residue free. We did not find any banned pesticides.

Specific Residues

Nothing to report.

Co-operative Prohibited Pesticides

We did not find any prohibited residues.

Co-operative Monitored Pesticides

Country	Produce Type	Pesticide
Costa Rica	Pineapple	Prochloraz

Germany	Apple	1,2,3,6-Tetrahydrophthalimide
India	Grape	Dithiocarbamates
South Africa	Plum	Cypermethrin, Dithiocarbamates, Pyrimethanil
Spain	Lettuce	Imidacloprid, Metalaxyl
Spain	Orange	Chlorpyrifos, Imazalil, Tebufenpyrad, Thiabendazole
Not known	Melon	Imazalil

Co-operative No restriction pesticides

Country	Produce Type	Pesticide
Costa Rica	Pineapple	Benzalkonium chloride
Germany	Apples	Boscalid, Trifloxystrobin
Israel	Potatoes	Chlorpropham
South Africa	Plum	Fuberidazole
UK	Apples	Boscalid, Myclobutanil, Pyraclostrobin
UK	Carrots	Boscalid, Fludioxonil
Not known	Melon	Benzalkonium chloride

May 2014

Overall

19 produce samples were tested (at an average of 554 different pesticides per product) and we found 24 residues, none of which exceeded the MRL set for that product.

In total, we found residues in eight samples, leaving 11 samples which were residue free. We did not find any banned pesticides.

Specific Residues

Nothing to report.

Co-operative Prohibited Pesticides

No residues detected.

Co-operative Monitored Pesticides

Country	Produce Type	Pesticide
Chile	Grapes	Imidacloprid, Methoxyfenozide
Costa Rica	Pineapple	Prochloraz, Triadimefon, Triadimenol
India	Grapes	Triadimenol
Serbia	Raspberries	Pyrimethanil, Tebuconazole
UK	Carrots	Linuron
UK	Spring Onions	Tebuconazole,

Co-operative No restriction pesticides

Country	Produce Type	Pesticide
Chile	Grapes	Boscalid, Fenhexamid, Pyraclostrobin
France	Apples	Boscalid, Diphenylamine

India	Grapes	Azoxystrobin, Chloromequat, Myclobutanil
Serbia	Raspberries	Boscalid, Fenhexamid, Pyraclostrobin
UK	Carrots	Boscalid
UK	Spring Onions	Azoxystrobin
UK	Spinach	Propamocarb

June 2014

Overall

15 produce samples were tested (at an average of 554 different pesticides per product) and we found 17 residues, none of which exceeded the MRL set for that product.

In total, we found residues in eight samples, leaving seven samples which were residue free. We did not find any banned pesticides.

Specific Residues

Nothing to report.

Co-operative Prohibited Pesticides

No residues detected.

Co-operative Monitored Pesticides

Country	Produce Type	Pesticide
Chile	Grape	Iprodione
Ireland	Mushroom	Prochloraz
Morocco	Avocado	Thiabendazole, Prochloraz
Netherlands	Pear	cis-1,2,3,6-Tetrahydrophthalimide
South Africa	Grapefruit	Imazalil, Thiabendazole
UK	Coriander	Linuron, Pendimethalin

Co-operative No restriction pesticides

Country	Produce Type	Pesticide
Chile	Grape	Boscalid, Cyprodinil, Fludioxonil, Pyraclostrobin
Spain	Courgette	Fonicamid
UK	Coriander	Boscalid

July 2014

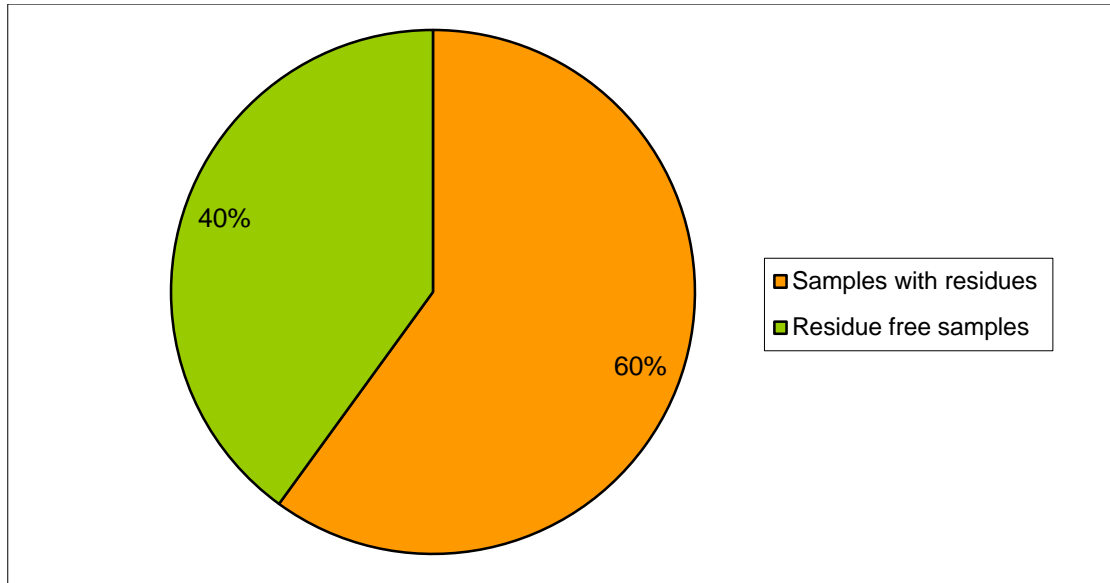

Overall

20 produce samples were tested (at an average of 554 different pesticides per product) and we found 29 residues, none of which exceeded the MRL set for that product.

In total, we found residues in 12 samples, leaving eight samples which were residue free. We did not find any banned pesticides.

Specific Residues

Nothing to report.

Co-operative Prohibited Pesticides

Country	Produce Type	Pesticide
Spain	Cherry	Omethoate

Co-operative Monitored Pesticides

Country	Produce Type	Pesticide
Egypt	Grape	Iprodione
Peru	Satsuma	Fenpropathrin, Imazalil, Pyriproxyfen, Thiabendazole
Spain	Apricot	Deltamethrin, Pirimicarb, Pirimicarb desmethyl
Spain	Cherry	Dimethoate
Spain	Tomato	Chlorpyrifos
UK	Carrot	Linuron
UK	Celery	Linuron
UK	Dill	Chlorpyrifos, Pendimethalin
UK	Parsley	Linuron, Pirimicarb

Not Known	Mixed Salad	Boscalid, Pirimicarb desmethyl
-----------	-------------	--------------------------------

Co-operative No restriction pesticides

Country	Produce Type	Pesticide
Egypt	Grape	Cyprodinil, Fludioxonil
Ethiopia	Mint	Abamectin
Spain	Apricot	Boscalid, Pyraclostrobin
UK	Parsley	Metamitron
Not Known	Blueberry	Boscalid
Not Known	Mixed Salad	Mandipropamid

August 2014

Overall

19 produce samples were tested (at an average of 554 different pesticides per product) and we found 26 residues, none of which exceeded the MRL set for that product.

In total, we found residues in eight samples, leaving 11 samples which were residue free. We did not find any banned pesticides.

Specific Residues

Nothing to report.

Co-operative Prohibited Pesticides

No residues detected.

Co-operative Monitored Pesticides

Country	Produce Type	Pesticide
Costa Rica	Pineapple	Piperonyl Butoxide, Triadimefon, Triadimenol
South Africa	Grapefruit	Chlorpyrifos, Imazalil, Pyriproxyfen
Spain	Coriander	Linuron
UK	Blueberry	Thiacloprid
UK	Roquette	Deltamethrin
UK	Strawberry	Penconazole, Pyrimethanil

Co-operative No restriction pesticides

Country	Produce Type	Pesticide
South Africa	Grapefruit	Pyraclostrobin
UK	Blueberry	Cyprodinil, Diflubenzuron, Fenhexamid, Fludioxonil

UK	Raspberry	Boscalid
UK	Roquette	Spinosad
UK	Strawberry	Azoxystrobin, Boscalid, Cyprodinil, Fenhexamid, Fludioxonil, Mepanipyrim, Myclobutanil

September 2014

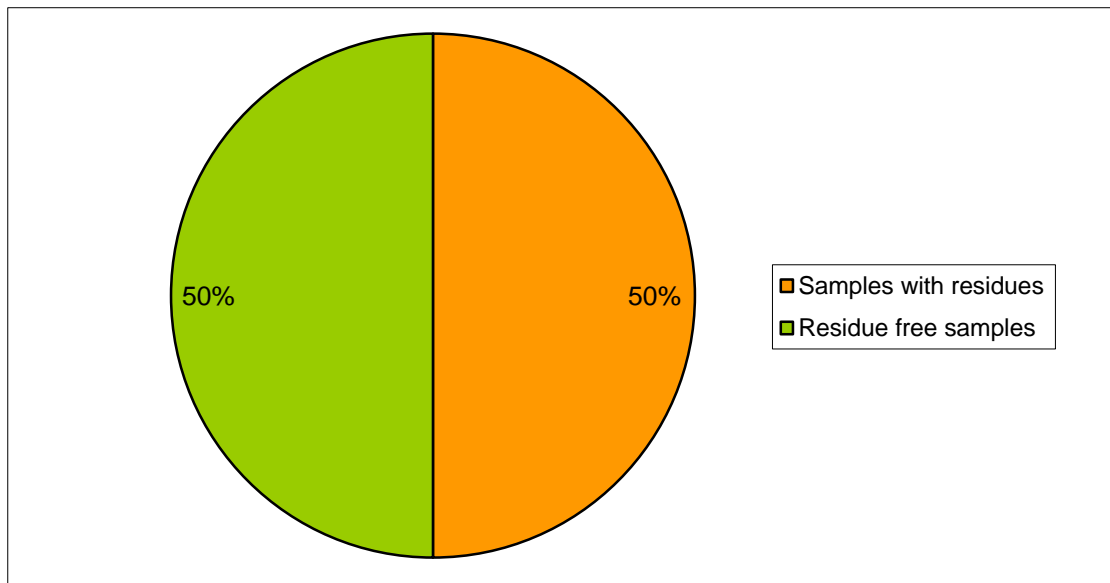

Overall

14 produce samples were tested (at an average of 554 different pesticides per product) and we found 32 residues, none of which exceeded the MRL set for that product.

In total, we found residues in seven samples, leaving seven samples which were residue free. We did not find any banned pesticides.

Specific Residues

Nothing to report.

Co-operative Prohibited Pesticides

Country	Produce Type	Pesticide
Greece	Grape	Thiamethoxam

Co-operative Monitored Pesticides

Country	Produce Type	Pesticide
Chile	Kiwi fruit	Iprodione
Greece	Grape	Chlorpyrifos, Cyfluthrin, Cypermethrin, Deltamethrin, Indoxacarb, Tetraconazole
Italy	Nectarine	Etofenprox
Spain	Peach	Cypermethrin, Dithiocarbamates, Iprodione, Tebuconazole
UK	Roquette	Acetamiprid, Dimethomorph, Dithiocarbamates
UK	Spinach	Deltamethrin

Co-operative No restriction pesticides

Country	Produce Type	Pesticide
Colombia	Banana	Azoxystrobin, Myclobutanil
Greece	Grape	Mandipropamid, Myclobutanil, Spirotetramat, Spiroxamine
Italy	Nectarine	Boscalid, Pyraclostrobin
Spain	Peach	Cyprodinil, Fludioxonil
UK	Roquette	Mandipropamid, Dimethomorph, Propamocarb
UK	Spinach	Dimethomorph, Mandipropamid

October 2014

Overall

17 produce samples were tested (at an average of 554 different pesticides per product) and we found 30 residues, one of which exceeded the MRL set for that product.

In total, we found residues in 13 samples, leaving four samples which were

residue free. We did not find any banned pesticides.

Specific Residues

After investigation the residue exceedance of benzalkonium (BAC) present in carrots was found to result from the use of sanitizers at the supplier production site. In response the supplier changed to a non BAC based sanitizer and subsequent testing has found no residues.

Co-operative Prohibited Pesticides

We did not find any prohibited residues.

Co-operative Monitored Pesticides

Country	Produce Type	Pesticide
Columbia	Passion fruit	Cypermethrin, Tebuconazole
Greece	Grape	Dithiocarbamates
UK	Cabbage	Lambda Cyhalothrin, Metalaxyl, Tebuconazole
UK	Collards	Deltamethrin
UK	Pepper	Imidacloprid
UK	Tomato	Acetamiprid, Piperonyl Butoxide

Not known	Grapefruit	Imazalil, Imidacloprid, Thiabendazole
Not known	Mixed Salad	Acetamiprid, Chlorantraniliprole
Not known	Mixed Vegetables	Benzalkonium chloride
Not known	Orange	Dithiocarbamates, Imazalil

Co-operative No restriction pesticides

Country	Produce Type	Pesticide
Columbia	Passion fruit	Azoxystrobin, Propamocarb
Greece	Grape	Cyprodinil, Fenhexamid, Fludioxonil
Israel	Pomegranate	Fludioxonil
UK	Cabbage	Trifloxystrobin
UK	Potato	Chlorpropham
Not Known	Mixed Salad	Boscalid, Propamocarb
Not Known	Orange	Pyraclostrobin

November 2014

Overall

21 produce samples were tested (at an average of 554 different pesticides per product) and we found 44 residues, none of which exceeded the MRL set for that product.

In total, we found residues in 14 samples, leaving seven samples which were residue free. We did not find any banned pesticides.

Specific Residues

Nothing to report.

Co-operative Prohibited Pesticides

Country	Produce Type	Pesticide
Spain	Cucumber	Thiamethoxam

Co-operative Monitored Pesticides

Country	Produce Type	Pesticide
Jordan	Strawberry	Etoxazole
Peru	Peas	Chlorothalonil, Difenoconazole, Imidacloprid, Lambda Cyhalothrin, Tebuconazole
Spain	Celery	Difenoconazole, Imidacloprid
Spain	Clementine	Chlorpyrifos, Imazalil, Pyriproxyfen, Thiabendazole
Spain	Cucumber	Metalaxyl
Spain	Pepper	Flutriafol
Spain	Tomato	Pymetrozine
UK	Collards	Pendimethalin, Triallate
UK	Lettuce	Deltamethrin, NO ₃

UK	Parsnip	Tebuconazole
UK	Pear	Methoxyfenozide, Spirodiclofen
Not known	Mixed Salad	Acetamiprid, Chlorantraniliprole, Dithiocarbamates, NO ₃

Co-operative No restriction pesticides
